## COUNCIL COMMUNICATION

AGENDA TITLE: Purchase of Vehicle Exhaust Extraction Systems for Fire Stations 2 and 3 (\$63,020)

MEETING DATE: June 21, 2000

PREPARED BY: Public Works Director

**RECOMMENDED ACTION:** That the City Council adopt the attached resolution waiving the formal bidding process and authorizing the purchase and installation of two vehicle exhaust extraction systems, one each for Fire Stations 2 and 3, from Neu-Tech, of Loomis, in the amount of \$63,020.78.

**BACKGROUND INFORMATION:** Fire Station 2, at 705 East Lodi Avenue, and Fire Station 3, at 2141 South Ham Lane, both need exhaust systems installed to properly vent harmful vehicle and equipment exhaust from the apparatus rooms. The Fire Department requested proposals for exhaust systems and received three proposals from the two main, established vendors of this type of equipment. The Nederman System, distributed by Neu-Tech, was determined to best meet the Fire Department's needs. The system for Station 2 will cost \$35,105.01, the system for Station 3 will cost \$27,915.77; the total cost from Neu-Tech is \$62,800.73 for all material, installation, warranty and training of City staff.

\$18,700.00 was budgeted in Facilities Services' maintenance and operating budget for painting and carpet replacement at Fire Station 2. Since that work will be done as part of the remodel, this money can be redirected to this project. The Fire Department has requested that this money be considered as a partial funding source.

The estimated cost for this work is \$65,000.00, including money for contingency and change orders. Staff requests that \$18,700.00 be used from the General Fund Budget and the balance, \$46,300.00, be taken from the Contingency Account.

**FUNDING:** General Fund Budget and Contingency Account (as shown above)
